Buffalo Texas Future Growth Plans

The City of Buffalo has many projects that are ongoing at this time. We have received several grants that will benefit the City.

Grants/Projects: Wastewater Treatment Plant Grant – this grant will build a new wastewater treatment plant that will allow for much future growth.

Downtown Revitalization #1 - This grant was for the Downtown Historic District to redo the sidewalks and lighting. It is in production at this time and completion is expected in 2023.

Downtown Revitalization #2 – This grant is for further expanding on the Historic District for sidewalks, parking and street. In production at this time and expected to be completed in 2023.

Sidewalk to Schools – TxDOT and City of Buffalo will work on this project that will be doing sidewalk from the Upper Junior High Campus to N Buffalo Avenue and then from N Buffalo Avenue to Commerce Street.

Harriman Park Renovation – TPWD Grant that is allowing us to renovate Harriman Park. Total rehab on this park is being done that will widen the entry into park, build a pond/lake, walking trail with a butterfly habitat, and new playscape area.

The City of Buffalo has major events that happen yearly for the public's enjoyment. Those events are:

Community Wide Easter Egg Hunt that is held prior to Easter.
Stampede Event – 3rd Weekend in the month of September
Annual Christmas Tree Lighting – Held most times after the Thanksgiving Holiday.
